

Hair Cut Orem

Salon 21 is a full service hair salon that provides products and services including; hair cut and color services, eyelash and hair extensions.

We opened our doors for business in September of 2009, and expand our salon in April 2012. We take great pride in the attention we have received both in the number of reviews we have received from our customers on Google to the nomination for Best Hair Salon from the Daily Herald.

We attribute our success to the skill and intensive education of our stylists. As a salon we are interested in generating the highest quality work, therefore, we only retain stylists who maintain our high standards.

We would like to thank all of the friends who made this possible and especially the clients and friends who have kept coming back. We are fully open to compliment and criticism. We hope to constantly improve according to the community's expectations.
